DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Brook (U.S. Patent No. 5,673,105).

Regarding claim 1, Brook discloses a scanner comprising: a platen (18) supported by a housing (10), said platen adapted to abut a media to be scanned; and a document cover (30) adapted to sandwich said media against said platen, said document cover hinged to said housing by at least one first hinge, said document cover comprising:

a base portion having a closed position and at least one open position (34C+34D); and a flap portion (34A+34B) independently hinged to said base portion by at least one second hinge (H2), said flap portion adapted to open to enable insertion of said media onto said platen while said base portion is in said closed position (fig. 5, col. 2, line 37 through col. 3, line 16).

Allowable Subject Matter

Claims 2-21 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
